

SOUTHWARK INCLUSIVE LEARNING SERVICE (SILS) SAFEGUARDING (CHILD PROTECTION) POLICY

Southwark Inclusive Learning Service (SILS) is committed to providing a safe and secure environment for children, staff and visitors and promoting a climate where children and adults will feel confident about sharing any concerns which they may have about their own safety or the well-being of others. We aim to safeguard and promote the welfare of children by protecting them from maltreatment; preventing impairment of children's health or development; ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and taking action to enable all children to have the best outcomes.

The School's Child Protection (CP) policy draws upon duties conferred by the Children Acts 1989 and 2004, The Children and Families Act 2014, S175 of the 2002 Education Act, The Education (Independent School Standards) Regulations 2014 (for independent schools), and the guidance contained in "[Working Together to Safeguard Children](#)", the DfE's statutory guidance "[Keeping children safe in education](#)", Ofsted Guidance and procedures produced by the London Safeguarding Children Board ([LSCB](#)) and the Southwark Safeguarding Children Board ([SSCB](#)). We also have regard to the advice contained in DfE's "[What to do if you're worried a child is being abused](#)" and "[Information Sharing – Advice for practitioners](#)". The policy is applicable to all on and off-site activities undertaken by pupils whilst they are the responsibility of the School.

We will ensure that all staff read at least Part one of DfE guidance "[Keeping children safe in education](#)" and that mechanisms are in place to assist staff to understand and discharge their role and responsibilities as set out in Part one.

POLICY AIMS

The purpose of this policy is to:

- Identify the names of responsible persons in the school and explain the purpose of their role
- Describe what should be done if anyone in the school has a concern about the safety and welfare of a child who attends the school
- Identify the particular attention that should be paid to those children who fall into a category that might be deemed "vulnerable"
- Set out expectations in respect of training
- Ensure that those responsible for recruitment are aware of how to apply safeguarding principles in employing staff
- Set out expectations of how to ensure children are safeguarded when there is potential to come into contact with non-school staff, e.g. volunteers, contractors etc.
- Outline how complaints against staff will be handled
- Set out expectations regarding record keeping
- Clarify how children will be kept safe through the everyday life of the school
- Outline how the implementation of this policy will be monitored.

This policy is consistent with all other policies adopted by the Governors and should in particular be read in conjunction with the following policies relevant to the safety and welfare of children:

- *ANTI-BULLYING POLICY*
- *POSITIVE BEHAVIOUR & REWARDS POLICY*
- *E-SAFETY POLICY*
- *CODE OF CONDUCT*
- *MEDICINES POLICY*

RESPONSIBILITIES AND IMMEDIATE ACTION

Safeguarding and promoting the welfare of children in our school is the responsibility of the whole school community. All adults working in this School (including visiting staff, volunteers and students on placement) are required to report instances of actual or suspected child abuse or neglect to the Designated Safeguarding Lead who is a member of the school's leadership team.

The Designated Safeguarding Lead is: Yomi Adewoye

The Deputy Designated Safeguarding Lead(s) is/are:

At KS4: Doreen Sinclair-McCollin, Otis Wright, Angelica Gray Dally,

At KS3: Pollyanne Viller, Madeleine Sarley-Pontin, Sandra Howe and Shallon Douglas

Day 6: Dorothy Davies

The Designated Safeguarding Lead is also the first point of contact for external agencies that are pursuing Child Protection investigations and co-ordinates the school's representation at CP conferences and Core Group meetings (including the submission of written reports for conferences). When an individual concern/incident is brought to the notice of the Designated Safeguarding Lead, they will be responsible for deciding upon whether or not this should be reported to other agencies as a safeguarding issue. Where there is any doubt as to the seriousness of this concern, or disagreement between the Designated Safeguarding Lead and the member of staff reporting the concern, advice will be sought from the Deputy Designated Safeguarding Lead, the LA's Strategic Lead Officer for safeguarding in education services or the Early Help Service (EHS) Duty Manager. If a child is in immediate danger or is at risk of harm, a referral will be made to children's social care and/or the police immediately. Anyone can make a referral. Where referrals are not made by the designated safeguarding lead, the designated safeguarding lead will be informed, as soon as possible, that a referral has been made.

Types of child abuse and neglect

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. They may be abused by an adult or adults or another child or children.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or

grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

In addition to these types of abuse and neglect, members of staff will also be alert to following specific safeguarding issues:

Child Sexual Exploitation (CSE)

CSE is a type of sexual abuse in which children are sexually exploited for money, power or status. Children or young people may be tricked into believing they are in a loving, consensual relationship. They might be invited to parties and given drugs and alcohol. They may also be groomed online. Some indicators of children being sexually exploited are: going missing for periods of time or regularly coming home late; regularly missing school or education or not taking part in education; appearing with unexplained gifts or new possessions; associating with other young people involved in exploitation; having older boyfriends or girlfriends; suffering from sexually transmitted infections; mood swings or changes in emotional wellbeing; drug and alcohol misuse and displaying inappropriate sexualised behaviour. A child under the age of 13 is not legally capable of consenting to sex (it is statutory rape) or any other type of sexual touching. Sexual activity with a child under 16 is also an offence. It is an offence for a person to have a sexual relationship with a 16 or 17 year old if that person holds a position of trust or authority in relation to the young person. Non consensual sex is rape whatever the age of the victim. If the victim is incapacitated through drink or drugs, or the victim or his or her family has been subject to violence or the threat of it, they can not be considered to have given true consent and therefore offences may have been committed. Child sexual exploitation is therefore potentially a child protection issue for all children under the age of 18.

Where it comes to our notice that a child under the age of 13 is, or may be, sexually active, whether or not they are a pupil of this school, this will result in an immediate referral to Children's Services. In the case of a young person between the ages of 13 and 16, an individual risk assessment will be conducted in accordance with the [London Child Protection Procedures](#). This will determine how and when information will be shared with parents and the investigating agencies.

Female Genital Mutilation (FGM)

FGM is a procedure where the female genital organs are injured or changed and there is no medical reason for this. It is frequently a very traumatic and violent act for the victim and can cause harm in many ways. The practice can cause severe pain and there may be immediate and/or long-term health consequences, including mental health problems, difficulties in childbirth, causing danger to the child and mother; and/or death.

FGM is a deeply embedded social norm, practised by families for a variety of complex reasons. It is often thought to be essential for a girl to become a proper woman, and to be marriageable. The practice is not required by any religion.

FGM is an unacceptable practice for which there is no justification. It is child abuse and a form of violence against women and girls.

FGM is prevalent in 30 countries. These are concentrated in countries around the Atlantic coast to the Horn of Africa, in areas of the Middle East like Iraq and Yemen, it has also been documented in communities in Colombia, Iran, Israel, Oman, The United Arab Emirates, The Occupied Palestinian Territories, India, Indonesia, Malaysia, Pakistan and Saudi Arabia. It has also been identified in parts of Europe, North America and Australia.

FGM is illegal in the UK. It is estimated that approximately 60,000 girls aged 0-14 were born in England and Wales to mothers who had undergone FGM and approximately 103,000 women aged 15-49 and approximately 24,000 women aged 50 and over who have migrated to England and Wales are living with the consequences of FGM. In addition, approximately 10,000 girls aged under 15 who have migrated to England and Wales are likely to have undergone FGM.

We note a new duty that was introduced on 31 October 2015 that requires teachers, which includes qualified teachers or persons who are employed or engaged to carry out teaching work in schools and other institutions to report 'known' cases of FGM in girls aged under 18 to the police. The duty applies to any teacher who is employed or engaged to carry out 'teaching work', whether or not they have qualified teacher status, in maintained schools, academies, free schools, independent schools, non-maintained special schools, sixth form colleges, 16-19 academies, relevant youth accommodation or children's homes in England. The duty does not apply in relation to suspected cases – it is limited to 'known' cases' (i.e. those which are visually identified or disclosed to a professional by the victim). The duty does not apply in cases where the woman is over 18 at the time of the disclosure/discovery of FGM (even if she was under 18 when the FGM was carried out). Further information on this duty can be found in the document "[Mandatory Reporting of Female Genital Mutilation – procedural information](#)".

Preventing Radicalisation

The Counter-Terrorism and Security Act 2015 places a duty on specified authorities, including local authorities and childcare, education and other children's services providers, in the exercise of their functions, to have due regard to the need to prevent people from being drawn into terrorism ("the Prevent duty"). Young people can be exposed to extremist influences or prejudiced views, in particular those via the internet and other social media. Schools can help to protect children from extremist and violent views in the same ways that they help to safeguard children from drugs, gang violence or alcohol.

Examples of the ways in which people can be vulnerable to radicalisation and the indicators that might suggest that an individual might be vulnerable:

- Example indicators that an individual is engaged with an extremist group, cause or ideology include: spending increasing time in the company of other suspected extremists; changing their style of dress or personal appearance to accord with the group; their day-to-day behaviour becoming increasingly centred around an extremist ideology, group or cause; loss of interest in other friends and activities not associated with the extremist ideology, group or cause; possession of material or symbols associated with an extremist cause (e.g. the swastika for far right groups); attempts to recruit others to the group/cause/ideology; or communications with others that suggest identification with a group/cause/ideology.
- Example indicators that an individual has an intention to use violence or other illegal means include: clearly identifying another group as threatening what they stand for and blaming that group for all social or political ills; using insulting or derogatory names or labels for another group; speaking about the imminence of harm from the other group and the importance of action now; expressing attitudes that justify offending on behalf of the group, cause or ideology; condoning or supporting violence or harm towards others; or plotting or conspiring with others.
- Example indicators that an individual is capable of contributing directly or indirectly to an act of terrorism include: having a history of violence; being criminally versatile and using criminal networks to support extremist goals; having occupational skills that can enable acts of terrorism (such as civil engineering, pharmacology or construction); or having technical expertise that can be deployed (e.g. IT skills, knowledge of chemicals, military training or survival skills).

The examples above are not exhaustive and vulnerability may manifest itself in other ways. There is no single route to terrorism nor is there a simple profile of those who become involved. For this reason, any attempt to derive a 'profile' can be misleading. It must not be assumed that these characteristics and experiences will necessarily lead to individuals becoming terrorists, or that these indicators are the only source of information required to make an appropriate assessment about vulnerability.

Channel is a programme which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism that uses existing collaboration between local authorities, the police, statutory partners (such as the education sector, social services, children's and youth services and offender management services) and the local community.

We will refer children at risk of harm as a result of involvement or potential involvement in extremist activity to Southwark Multi Agency Safeguarding Hub ([MASH](#)). The MASH will share the referral details of new referrals with the Prevent lead police officer and LA Prevent coordinator at the point the referral is received. The referral will then be processed through the MASH multi agency information sharing system and parallel to this the Prevent police officer will be carrying out initial screening checks. The Prevent police officer will make a referral to the Channel Practitioner if there are sufficient concerns.

Private Fostering

Private fostering is when a child under the age of 16 (under 18 if disabled) is cared for by someone who is not their parent or a 'close relative'. This is a private arrangement made between a parent and a carer, for 28 days or more. Close relatives are defined as step-parents, grandparents, brothers, sisters, uncles or aunts (whether of full blood, half blood or by marriage). Great grandparents, great aunts, great uncles and cousins are not regarded as close relatives.

The law requires that Southwark Council should be notified if anyone is looking after someone else's child for 28 days or more. The purpose of the council's involvement is to support the child and private foster family (and wherever possible the biological parent/s) with any issues arising. These may be practical issues such as benefits, housing, immigration or emotional issues such as keeping contact with biological family, maintaining cultural identity.

If we become aware of a child in a private fostering arrangement within Southwark, we will notify the council's Multi Agency Safeguarding Hub ([MASH](#)) by emailing MASH@southwark.gov.uk or calling **020 7525 1921**. Advice about whether there is a need to notify the council, can be obtained by calling **07539 346808** or sending an email to privatefosteringadvice@southwark.gov.uk.

Referrals

Safeguarding referrals should be made to Southwark Multi Agency Safeguarding Hub ([MASH](#)) via a Common Assessment Framework (CAF) form and copied to the LA's Schools Safeguarding Coordinator. Prior to any written CAF being sent as a referral to social care, there should be a verbal consultation with the MASH social worker or manager, by calling the duty desk on **020 7525 1921**, to ensure that making a referral is an appropriate action. The parent/carer will normally be contacted to obtain their consent before a referral is made. However, if the concern involves, for example alleged or suspected child sexual abuse, Honour Based Violence, fabricated or induced illness or the Designated Safeguarding Lead has reason to believe that informing the parent at this stage might compromise the safety of the child or a staff member, nothing should be said to the parent/carer ahead of the referral, but a rationale for the decision to progress without consent should be provided with the referral.

In circumstances where a child has an unexplained or suspicious injury that requires urgent medical attention, the CP referral process should not delay the administration of first aid or emergency medical assistance. **If a pupil is thought to be at immediate risk because of parental violence, intoxication, substance abuse, mental illness or threats to remove the child during the school day, for example, urgent Police intervention will be requested.**

Where a child sustains a physical injury or is distressed as a result of reported chastisement, or alleges that they have been chastised by the use of an implement or substance, this will immediately be reported for investigation.

All parents applying for places at this school will be informed of our safeguarding responsibilities and the existence of this policy. In situations where pupils sustain injury or are otherwise affected by an accident or incident whilst they are the responsibility of the school, parents will be notified of this as soon as possible.

SILS recognises the need to be alert to the risks posed by strangers or others (including the parents or carers of other pupils) who may wish to harm children in school or pupils travelling to and from school and will take all reasonable steps to lessen such risks.

VULNERABLE PUPILS

Particular vigilance will be exercised in respect of pupils who are subject to Child Protection Plan and any incidents or concerns involving these children will be reported immediately to the allocated Social Worker (and confirmed in writing; copied to the LA's Schools Safeguarding Coordinator). If the pupil in question is a Looked-After child, this will also be brought to the notice of the Designated Person with responsibility for children in public care.

We acknowledge that children with special educational needs (SEN) and disabilities can face additional safeguarding challenges. We are aware that additional barriers can exist when recognising abuse and neglect in this group of children. This can include assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration; children with SEN and disabilities can be disproportionately impacted by things like bullying- without outwardly showing any signs; and communication barriers and difficulties in overcoming these barriers.

If a pupil discloses that they have witnessed domestic abuse or it is suspected that they may be living in a household which is affected by family violence, this will be referred to the Designated Safeguarding Lead as a safeguarding issue.

The School also acknowledges the additional need for support and protection of children who are vulnerable by virtue of homelessness, refugee/asylum seeker status, the effects of substance abuse within the family, those who are young carers, mid-year admissions, pupils who are excluded from school and pupils where English is an additional language, particularly for very young children, using the translation service if necessary.

The school has a strong commitment to an anti-bullying policy and will consider all coercive acts and peer on peer abuse within a Child Protection context. We recognise that some pupils will sometimes negatively affect the learning and wellbeing of other pupils and their behaviour will be dealt with under the school's behaviour policy. As a school, we will minimise the risk of allegations against other pupils by providing a developmentally appropriate PSHE syllabus which develops pupils' understanding of acceptable behaviour and keeping themselves safe, having systems in place for any pupil to raise concerns with staff, knowing that they will be listened to, believed and valued, delivering targeted work on assertiveness and keeping safe to those pupils identified as being at risk, developing robust risk assessments and providing targeted work for pupils identified as being a potential risk to other pupils. Occasionally allegation may be of a peer on peer abuse nature, which may include physical abuse (violence, particularly pre-planned, forcing other children to use drugs or alcohol), emotional abuse (blackmail or extortion, threats and intimidation), sexual abuse (indecent exposure, indecent touching or serious sexual assaults, forcing other children to watch pornography or take part in sexting) and sexual exploitation (encouraging other children to engage in inappropriate sexual behaviour, having an older boyfriend/girlfriend, associating with unknown adults or other sexually exploited children, staying out overnight, photographing or videoing other children performing indecent acts). Any possible peer on peer abuse case will be shared with the designated safeguarding lead with a view to referring to appropriate agencies following the referral procedures.

We will always ascertain the views and feelings of all children. We acknowledge that children who are affected by abuse or neglect may demonstrate their needs and distress through their words, actions, behaviour, demeanour, school work or other children.

TRAINING

Whole-school in-service training on safeguarding issues will be organised on at least a three yearly basis and the next CP INSET session for all staff will take place in September 2016. . In addition, all staff members

will receive safeguarding and child protection updates (for example, via email, e-bulletins and staff meetings), as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively. All newly recruited staff (teaching and non-teaching) and Governors will be apprised of this policy and will be required to attend relevant LA or Safeguarding Board training. In addition, all new staff and temporary staff will be required to attend an induction session with the Designated Safeguarding Lead or their deputy on their first day in the school.

The Designated Safeguarding Lead (and their Deputies) will attend the LA's dedicated induction course and then refresher training at least every two years. The designated safeguarding lead will also undertake Prevent awareness training. In addition to this formal training, their knowledge and skills will be refreshed (for example, via e-bulletins, meeting other designated safeguarding leads or simply taking time to read and digest safeguarding developments) at regular intervals, as required, but at least annually, to allow them to understand and keep up with any developments relevant to their role. Designated staff will be encouraged to attend appropriate network meetings and to participate in the [multi-agency training programme](#) organised by the Southwark Safeguarding Children Board (SSCB).

RECRUITMENT

S/LS is committed to the principles of safer recruitment and, as part of that, adopts recruitment procedures that help deter, reject and/or identify people who might abuse children. Safe recruitment processes are followed and all staff recruited to the school will be subject to appropriate identity, qualification and health checks. References will be verified and appropriate criminal record checks [Disclosure and Barring Service (DBS) checks], barred list checks and prohibition checks will be undertaken. The level of DBS check required, and whether a prohibition check is required, will depend on the role and duties of an applicant to work in the school, as outlined in Part three of the DfE guidance "[Keeping children safe in education](#)". We will also have regard to DfE's statutory guidance for schools about the employment of staff disqualified from childcare "[Disqualification under the Childcare Act 2006](#)", which also contains information about 'disqualification by association'.

Relevant members of staff and governors who are involved in recruitment will undertake safer recruitment training. The school will ensure that at least one person on any appointment panel has undertaken safer recruitment training in line with staffing regulations.

This School will only use employment agencies which can demonstrate that they positively vet their supply staff and will report the misconduct of temporary or agency staff to the agency concerned and to the LA. Staff joining the School on a permanent or temporary basis will be given a copy of this policy. Additionally, the Staff Handbook confirms CP procedures within the School.

VOLUNTEERS

Any parent or other person/organisation engaged by the school to work in a voluntary capacity with pupils will be subject to all reasonable vetting procedures and Criminal Records Checks.

Under no circumstances a volunteer in respect of whom no checks have been obtained will be left unsupervised or allowed to work in regulated activity.

Volunteers who on an unsupervised basis teach or look after children regularly, or provide personal care on a one-off basis in our school are deemed to be in regulated activity. We will obtain an enhanced DBS certificate (which will include barred list information) for all volunteers who are new to working in regulated activity. Existing volunteers in regulated activity do not have to be re-checked if they have already had a DBS check (which includes barred list information). However, we may conduct a repeat DBS check (which will include barred list information) on any such volunteer should we have any concerns.

The law has removed supervised volunteers from regulated activity. There is no legal requirement to obtain DBS certificate for volunteers who are not in regulated activity and who are supervised regularly and on ongoing day to day basis by a person who is in regulated activity, but an enhanced DBS check without a barred list check may be requested following a risk assessment.

Further information on checks on volunteers can be found in Part three of the DfE guidance "[Keeping children safe in education](#)".

Volunteers will be subject to the same code of conduct as paid employees of the school.

Voluntary sector groups that operate within this school or provide off-site services for our pupils or use school facilities will be expected to adhere to this policy or operate a policy which is compliant with the procedures adopted by the Southwark Safeguarding Children Board. Premises lettings and loans are subject to acceptance of this requirement.

STAFF CODE OF CONDUCT

All staff (paid and voluntary) are expected to adhere to a code of conduct in respect of their contact with pupils and their families. The Teachers' Standards 2012 state that all teachers, including headteachers, should safeguard children's wellbeing and maintain public trust in the teaching profession as part of their professional duties. Children will be treated with respect and dignity and no punishment, detention, restraint, sanctions or rewards are allowed outside of those detailed in the school's Behaviour Management Policy. Whilst it would be unrealistic and undesirable to preclude all physical contact between adults and children, staff are expected to exercise caution and avoid placing themselves in a position where their actions might be open to criticism or misinterpretation. Where incidents occur which might otherwise be misconstrued, or in the exceptional circumstances where it becomes necessary to physically restrain a pupil for their own protection or others' safety, this will be appropriately recorded and reported to the Headteacher and parents. Any physical restraint used will comply with DfE guidance "[Use of reasonable force in schools](#)".

Except in cases of emergency, first aid will only be administered by qualified First Aiders. If it is necessary for the child to remove clothing for first aid treatment, there will, wherever possible, be another adult present. If a child needs help with toileting, nappy changing or washing after soiling themselves, another adult should be present or within earshot. All first aid treatment and non-routine changing or personal care will be recorded and shared with parents/carers at the earliest opportunity.

Children requiring regular medication or therapies for long-term medical conditions will be made the subject of a Medical Plan that has been agreed with the parents and health authority.

For their own safety and protection, staff should exercise caution in situations where they are alone with pupils. Other than in formal teaching situations; for example during musical instrument tuition, the door to the room in which the 1:1 coaching, counselling or meeting is taking place should be left open. Where this is not practicable because of the need for confidentiality, another member of staff will be asked to maintain a presence nearby and a record will be kept of the circumstances of the meeting. All rooms that are used for the teaching or counselling of pupils will have clear and unobstructed glass panels in the doors.

School staff should also be alert to the possible risks that might arise from social contact with pupils outside of the school. Home visits to pupils or private tuition of pupils should only take place with the knowledge and approval of the Headteacher. Visits/telephone calls by pupils to the homes of staff members should only occur in exceptional circumstances and with the prior knowledge and approval of the Headteacher. Any unplanned contact of this nature or suspected infatuations or "crushes" will be reported to the Headteacher. Staff supervising off-site activities or school journeys will be provided with a school mobile phone as a point of contact for parents and carers.

Staff will only use the school's digital technology resources and systems for professional purposes or for uses deemed 'reasonable' by the Head and Governing Body. Staff will only use the approved school email, school learning platform or other school approved communication systems with pupils or parents/carers and only communicate with them on appropriate school business and will not disclose their personal telephone numbers and email addresses to pupils or parents/carers. Staff will not use personal cameras (digital or otherwise) or camera phones for taking and transferring images of pupils or staff without permission and will not store images at home.

Staff should be aware of the school's whistle-blowing procedures and share immediately any disclosure or concern that relates to a member of staff with the Headteacher or one of the Designated Safeguarding Leads if the Headteacher is not available and nothing should be said to the colleague involved. It should be shared with the Chair of Governors if it relates to the Headteacher.

CONTRACTORS

Building contractors who are engaged by or on behalf of the school to undertake works on site will be made aware of this policy and the reasons for this. Long-term contractors who work regularly in the school during term time will be asked to provide their consent for DBS checks to be undertaken. These checks will be undertaken when individual risk assessments by the Leadership Team deem this to be appropriate. During major works, when large numbers of workers and sub-contractors may be on site during term time, Health and Safety risk assessments will include the potential for contractors or their employees to have direct access to pupils in non-teaching sessions. All contractors and sub-contractors will be issued with copies of the school's code of conduct for staff.

Individuals and organisations that are contracted by the school to work with or provide services to pupils will be expected to adhere to this policy and their compliance will be monitored. Any such contractors will be subject to the appropriate level of DBS check, if any such check is required (for example because the contractor is carrying out teaching or providing some type of care for or supervision of children regularly). Contractors for whom an appropriate DBS check has not been undertaken will be supervised if they will have contact with children. Under no circumstances we will allow a contractor in respect of whom no checks have been obtained to work unsupervised, or engage in regulated activity. We will determine the appropriate level of supervision depending on the circumstances.

We will always check the identity of contractors and their staff on arrival at the school.

COMPLAINTS/ALLEGATIONS MADE AGAINST STAFF

SILS takes seriously all complaints made against members of staff. Procedures are in place for pupils, parents and staff to share any concern that they may have about the actions of any member staff or volunteer. All such complaints will be brought immediately to the attention of the Headteacher or one of the Designated Safeguarding Leads if the Headteacher is not available and nothing should be said to the colleague involved. In cases where the Headteacher is the subject of the allegation or concern, they will be reported to the Chair of Governors, in order that they may activate the appropriate procedures. These procedures are used in respect of all cases in which it is alleged that a teacher or member of staff (including volunteers) in a school or college that provides education for children under 18 years of age has:

- behaved in a way that has harmed a child, or may have harmed a child;
- possibly committed a criminal offence against or related to a child; or
- behaved towards a child or children in a way that indicates he or she would pose a risk of harm children.

The Local Authority's Designated Officer(s) (DO) should be informed of all allegations that come to a school's attention and appear to meet the criteria. Contact can also be made with LA's Schools Safeguarding Coordinator who will liaise with the DO. Many cases may well either not meet the criteria set out above, or may do so without warranting consideration of either a police investigation or enquiries by local authority children's social care services. In these cases, local arrangements will be followed to resolve cases without delay.

Some rare allegations will be so serious they will require immediate intervention by children's social care services and/or police. In such cases, referral to the DO will lead to a Strategy Meeting or Discussion being held in accordance with the DfE guidance and London SCB procedures. This process will agree upon the appropriate course of action and the time-scale for investigations.

The school has a legal duty to refer to the DBS anyone who has harmed, or poses a risk of harm, to a child and who has been removed from working (paid or unpaid) in regulated activity, or would have been

removed had they not left. The DBS will consider whether to bar the person. Referrals will be made as soon as possible after the resignation or removal of the individual.

The full procedures about dealing with allegations of abuse made against teachers and other staff can be found in Part Four of the DfE guidance "[Keeping children safe in education](#)".

The Chair of Management Committee is: Sue Millington, C/o SILS, 2 Davey Street. SE15 6LF. Tel: 0207 525 1150

The Vice-chair is: Ron St Louis, C/o SILS, 2 Davey Street. SE15 6LF. Tel: 020 7525 2699

The LA's DO is: Eva Simcock 020 7525 0689

There is also a duty system and one of the CP Coordinators in Quality Assurance Unit is on duty each day to deal with DO issues when DO is unavailable. Duty telephone number for enquiries/referrals is 020 7525 3297

The LA's Strategic Lead Officer for safeguarding in education services is: Nina Dohel 020 7525 3252

The LA's Deputy in education services is: the EHS Duty Manager 020 7525 3893

The LA's Schools Safeguarding Coordinator is: Apo ÇAĞIRICI 020 7525 2715

EHS Duty Officer (Education): 020 7525 2714

We also note the '[Safeguarding information for professionals and the community in Southwark](#)' on Southwark Council's website.

RECORDS

Brief and accurate written notes will be kept of all incidents and child protection or child in need concerns relating to individual pupils. These notes are significant especially if the incident or the concern does not lead to a referral to other agencies. This information may be shared directly with other agencies as appropriate. All contact with parents and external agencies will be logged and these will be kept as CP records. The school will take into account the views and wishes of the child who is the subject of the concern but staff will be alert to the dangers of colluding with dangerous "secrets".

Child protection records are not open to pupils or parents. All CP records are kept securely by the Designated Safeguarding Lead and separately from educational records. They may only be accessed by the Designated Safeguarding Lead, their Deputies and the senior managers of the school.

The content of Child Protection Conference or Review reports prepared by the school will follow the headings recommended by Children's Services and will, wherever possible, be shared with the parents/carer in advance of the meeting.

Child Protection records will be sent to receiving schools separately and under a confidential cover when pupils leave the school, ensuring secure transit and a confirmation of receipt will be obtained.

If a pupil is withdrawn from the school having not reached the normal date of transfer; due to a family move or any other reason, all efforts will be made to identify any new address and the school to which they are being admitted and to ensure that their educational records are sent without delay to the child's new school. If the parent/carer fails to provide this information, an urgent referral will be made to the Early Help Service either through the EHS Duty Officer or through the local team manager in order that they might make further enquiries. If this school receives educational records concerning a child who is not registered with us, the records will be returned promptly to the sending school with a note, advising them to refer to their LA's Children's Services Department. **A child's name will only be removed from the School's Admissions Register in accordance with the Pupil Registration Regulations or with the authorisation of the Local Team Manager in the Early Help Service.**

All additions to or deletions from the school roll will trigger the completion of a Common Transfer File (CTF) which will be downloaded to the appropriate database via the S2S system with particular regard to pupils leaving the school with unknown destination.

The school will require documentary proof as to the identity of pupils presented for admission. If there is any doubt as to the identity of a pupil, advice will be sought from the local authority and other statutory agencies, as appropriate. We will maintain accurate and up to date records of those with Parental Responsibility and emergency contacts. Pupils will only be released to the care of those with Parental Responsibility or someone acting with their written consent.

SAFETY IN THE SCHOOL

No internal doors to classrooms will be locked whilst pupils are present in these areas.

Entry to school premises will be controlled by doors that are secured physically or by constant staff supervision or video surveillance. Authorised visitors to the school will be logged into and out of the premises and will be asked to wear their identity badges or be issued with school visitor badges. Unidentified visitors will be challenged by staff or reported to the Headteacher or school office. Carelessness in closing any controlled entrance will be challenged.

The presence of intruders and suspicious strangers seen loitering near the school or approaching pupils, will be reported to the Police by calling 101 or 999, depending on the circumstances and the urgency of the case so that if police stops these individuals they can be spoken to about what they were doing and dealt with accordingly. Brief information about the incident will be sent to LA's Schools Safeguarding Coordinator with a view to alerting other local schools in liaison with the police and through appropriate systems.

Parents, carers or relatives may only take still or video photographic images of pupils in school or on school-organised activities with the prior consent of the school and then only in designated areas. Images taken must be for private use only. Recording and/or photographing other than for private use would require the consent of the other parents whose children may be captured on film. Without this consent the Data Protection legislation would be breached. If parents do not wish their children to be photographed or filmed and express this view in writing, their rights will be respected.

CURRICULUM

S/LS acknowledges the important role that the curriculum can play in the prevention of abuse and in the preparation of our pupils for the responsibilities of adult life and citizenship. It is expected that all curriculum co-ordinators will consider the opportunities that exist in their area of responsibility for promoting the welfare and safety of pupils. As appropriate, the curriculum will be used to build resilience, help pupils to keep safe and to know how to ask for help if their safety is threatened. As part of developing a healthy, safer lifestyle, pupils will be taught, for example:

- to recognise and manage risks in different situations and then decide how to behave responsibly;
- to judge what kinds of physical contact are acceptable and unacceptable;
- to recognise when pressure from others (including people they know) threatens their personal safety and well-being; including knowing when and where to get help;
- to use assertiveness techniques to resist unhelpful pressure;
- emotional literacy.

All computer equipment and internet access within the School will be subject to appropriate "parental controls" and Internet safety rules in line with our Online Safety Policy.

HEALTHY SCHOOLS

S/LS will work with partners to promote a whole healthy school approach and achieving the "Healthy School London" status – including a focus on the curriculum with the aim of:

- Developing a school ethos, culture, spiritual, moral, social and cultural (SMSC) development provision and environment which encourages a healthy lifestyle for all pupils, including the vulnerable;
- Using the full capacity and flexibility of the curriculum to help pupils to be safe and healthy;
- Ensuring that food and drink available across the school day reinforce the healthy lifestyle message;

- Providing high quality PSHE including sex and relationship education (SRE) as part of Personal Development
- Providing high quality Physical Education (PE) and sport to promote physical activity;
- Promoting an understanding of the full range of issues and behaviours which impact upon lifelong health and wellbeing, including emotional wellbeing and mental health;
- Working in partnerships with parents/carers, local communities, external agencies and volunteers to support health and wellbeing of all pupils including the vulnerable.

WORKING IN PARTNERSHIP WITH PARENTS

It is our policy to work in partnership with parents or carers to secure the best outcomes for our children. We will therefore communicate as clearly as possible about the aims of this school.

- We will use clear statements in our brochures and correspondence.
- We will liaise with agencies in the statutory, voluntary and community sectors and locality teams that are active in supporting families.
- We will be alert to the needs of parents/carers who do not have English as their first language and will utilise the translation services as necessary.
- We will distribute the LA's leaflet for parents, "***Protecting Children in Education Settings***".
- We will make available a copy of this policy to any parent who requests it. The policy will also be available through the school's web site.
- We will keep parents informed as and when appropriate.

THE ROLE OF THE GOVERNING BODY

The Governing Body will ensure that they comply with their duties under legislation and that the policies, procedures and training in the school are effective and comply with the law at all times.

The Governing Body will ensure that the school contributes to inter-agency working in line with statutory guidance "[Working Together to Safeguard Children](#)" and that the school's safeguarding arrangements take into account the procedures and practice of the local authority as part of the inter-agency safeguarding procedures set up by the SSCB.

The Governing Body has formally adopted this policy and will review its contents annually or sooner if any legislative or regulatory changes are notified to it by the designated governor or the headteacher.

The Governing Body has nominated Sue Millington (***the Chair***) as a lead to take leadership responsibility for the school's safeguarding arrangements.

Concerns about and allegations of abuse made against the headteacher will be referred to the chair of governors who will liaise with the LA's designated officer (DO) and partner agencies and will attend any strategy meetings called in respect of such an allegation against the headteacher.

As a good practice, the headteacher will provide termly/annual report to the Governing Body outlining details of any safeguarding issues that have arisen during the term/year and the outcome of any cases identified. These reports will respect all issues of confidentiality and will not therefore identify any person(s) by name.

Also as a good practice, the nominated governor will meet on a regular basis with the Designated Safeguarding Lead to monitor the school's safeguarding arrangements and both the volume and progress of cases where a concern has been raised to ensure that the school is meeting its duties in respect of safeguarding.

MONITORING AND EVALUATION

The governing body will monitor the safeguarding arrangements in the school to ensure that these arrangements are having a positive impact on the safety and welfare of children. This will be evaluated on the basis of evidence of:

Appendix 1 (SILS Safeguarding Policy June 2016)

Managing child protection allegations against staff

Introduction

- 1. Safeguarding the well being of children is defined by the Department for Education in their statutory advice 'Keeping Children Safe in Education' July 2015 as 'protecting children from maltreatment; preventing impairment of children's health or development; ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and taking action to enable all children to have the best outcomes.' Their advice applies to all schools and all schools must have regard for it when carrying out their duty to promote and safeguard the welfare of children.*
- 2. All staff (paid and voluntary) are expected to adhere to a code of conduct in respect of their contact with pupils and their families. The Teacher Standards 2012 require all teachers, including head teachers, to safeguard children's wellbeing and maintain public trust in the teaching profession as part of their professional duties.*
- 3. This guidance is recommended to all schools and should be read in conjunction with the schools overarching safeguarding policy. It complements the model safeguarding policy recommended to schools by Southwark Council and provides additional detail about the initial steps that are followed when allegations arise against staff in schools.*
- 4. Any adult working with children may at some point be the subject of an allegation that they have abused a child or put a child at risk. Such allegations can be distressing for everyone involved. The school will have separate procedures in place for pupils, parents and staff to share any concern that they may have about the actions of any member staff or volunteer. This guidance provides a transparent and consistent child-centred approach to investigating such concerns and identifying appropriate action, whilst ensuring that those facing allegations are appropriately supported. This guidance applies regardless of whether the school is where the abuse is alleged to have taken place.*

When allegations are reported

5. *All staff working in schools have a duty to report safeguarding concerns in accordance with the school's safeguarding policy. Any failure to do so may have serious consequences on pupils, colleagues and/or the school itself and could be considered to constitute neglect of duty.*
6. *Notwithstanding this, it is acknowledged that sometimes staff may wish to raise concerns in confidence and in such cases staff may utilise the school's whistle blowing policy.*
7. *Concerns may come to light in a variety of ways. For example, a child may disclose concerns personally, a carer may raise concerns or a member of staff or visitor to the school may witness something of concern. All concerns will be considered objectively. Schools must take all such concerns seriously.*
8. *All such complaints will be brought immediately to the attention of the head teacher or one of the school's designated safeguarding leads if the head teacher is not available. Nothing should be said to the individual concerned before this and there should be no delay in reporting the issue. In cases where the head teacher is the subject of the allegation or concern, the concerns should instead be reported to the Chair of Governors.*
9. *The school's safeguarding policy should be followed in respect of all cases in which it is alleged that a teacher or member of staff (including volunteers) in a school or college that provides education for children under 18 years of age has:*
 - *behaved in a way that has harmed a child, or may have harmed a child;*
 - *possibly committed a criminal offence against or related to a child; or*
 - *behaved towards a child or children in a way that indicates he or she would pose a risk of harm children.*
10. *Unless it is apparent that the individual reporting the allegation has been mistaken or misinterpreted what they saw, then the Local Authority's Designated Officer(s) (DO) should be informed of all allegations that come to a school's attention and appear to meet the criteria. Contact may also be made with authority's Schools Safeguarding Coordinator who will liaise with the DO. Some cases will not meet the criteria set out above, or may do so without warranting consideration of either a police investigation or enquiries by local authority children's social care services. In these cases, local arrangements will be followed to resolve cases without delay.*
11. *If there is a risk of publicity surrounding the concern the school may wish to take advice from the DO and the authority's press office on how to manage this.*
12. *Some rare allegations will be so serious they will require immediate intervention by children's social care services and/or police. The DO will determine whether to make such referral on behalf of the school.*
13. *In such cases, referral to the DO will lead to a Strategy Meeting or Strategy Discussion being held in accordance with the DfE guidance and London Safeguarding Children's Board procedures. This process will agree upon the appropriate course of action and the time-scale for any investigations.*
14. *The strategy discussion will determine the appropriate action to be taken. In some cases, a preliminary investigation may be required to establish whether there is any potential substance to the allegation and whether more formal action is required under the schools procedures. The head teacher, in consultation with the DO, will normally be appointed to undertake this but this may be delegated. The*

appointed person will take steps to establish the full facts of the allegation without unreasonable delay. This may involve asking questions of the person making the allegation, the child, witnesses and/or the individual against whom the allegation is made; checking timetables or CCTV; seeking medical attention for the child; and/or asking for written statements. What is needed in each case will be determined by the individual circumstances and advice will be provided by the DO and may also be sought from the schools human resources advisers. Steps should be taken by the school to secure available evidence and maintain confidentiality.

15. *The following definitions should be used when determining the outcome of the preliminary investigation:*
- **Substantiated:** *there is sufficient evidence to prove the allegation*
 - **Malicious:** *there is sufficient evidence to disprove the allegation*
 - **False:** *there is sufficient evidence to disprove the allegation*
 - **Unsubstantiated:** *there is insufficient evidence to either prove or disprove the allegation. The term does not therefore imply guilt or innocence.*
 - **Unfounded:** *there is no evidence or proper basis which supports the allegation. This term may be used where the person reporting the concern misinterpreted the incident and/or was mistaken or unaware of the full circumstances.*
16. *If the allegation is not demonstrably false or unfounded and there is cause to suspect a child is suffering or is likely to suffer significant harm, the DO will convene a strategy meeting.*

Reporting concerns to the authority's designated officer

17. *The DO will require all relevant information from the school, including any notes of meetings or conversations or witness statements relating to the allegation. The minimum information to be provided to the DO is:*
- *Details of the allegation*
 - *Name, home address, date of birth, job title and level of contact with children of staff against whom the allegation is made*
 - *Name and contact information of the person making the allegation and their relationship to the school*
 - *Name, home address and date of birth for the child/children concerned*
 - *Name of the parents or carers of the child/children and contact details*
 - *Any notes or written statements made by those involved, including any witnesses and any other information or evidence already provided*

Malicious and false allegations

18. *Where it is concluded either by the DO or as a result of an internal investigation that there is insufficient evidence to substantiate an allegation, the matter may need to be referred to children's social care to determine whether the child is in need of services. The DO will advise on this.*
19. *If an allegation is made in good faith, but is not upheld or confirmed by subsequent investigation, no action will be taken against the individual concerned. If however a member of staff is found to have made a malicious allegation, or acted for personal gain, they may be subject to disciplinary action.*

Supporting those involved

20. *Children's social services and the DO will advise the school on appropriate support for the child and their family.*
21. *The school recognises the duty of care towards staff and will provide information to staff on any employee assistance scheme or counselling provision available to them. All those involved will be reminded of the need for confidentiality.*
22. *The individual facing allegations must be advised of the allegations and be told of the actions to be taken. The timing of this will be determined by the DO. The individual will be kept up to date of progress by the head teacher or appointed officer. They should be advised to contact their trade union and/or professional association, or an independent colleague, for support. The individual may wish to speak with their GP and/or a referral to the school's occupational health service may be appropriate in some circumstances.*

Suspension from work

23. *Suspension should not be the default position when an allegation is made; an individual should be suspended only if there is no reasonable alternative. Community schools must consult with the local authority, through the schools human resources team, before issuing a suspension. Other schools are strongly recommended to take advice from their human resources advisers.*
24. *Suspension may only be authorised by the head teacher after consultation with the chair of the governing body and a suspension may only be ended with the agreement of the governing body. The chair of the governing body should only be given an outline of the allegation in case they are required to participate in a formal procedure at a later date.*
25. *Suspension is a neutral act with the purpose of protecting the individual concerned and/or the investigation process.*
26. *Alternatives to suspension could include a move to alternative duties, a move to a different location, increased supervision, or moving the child/children to a different class. Suspension will always be considered if:*
 - *There is cause to suspect a child is at risk of significant harm*
 - *The allegation warrants a police investigation*
 - *The allegation amounts to potential gross misconduct or some other substantial reason serious enough to be grounds for dismissal*
 - *There is a statutory restriction imposed, for example a barring order.*

Formal investigations

27. *Where there is sufficient evidence to warrant an investigation into allegations of potential misconduct or gross misconduct, the investigation will be undertaken in accordance with the school's disciplinary procedure.*
28. *Where training needs are identified it may be more appropriate to follow the school's capability procedure.*
29. *Where a criminal investigation is being undertaken, the school will liaise with police regarding the timing of any investigation to avoid any potential conflict.*

Referrals to the Disclosure and Barring Service or National College for Teaching and Leadership

30. All employers have a legal duty to refer to the DBS anyone who they think has engaged in conduct that has harmed, or poses a risk of harm, to a child and who has been removed from working (paid or unpaid) in regulated activity, or would have been removed had they not left. The DBS will consider whether to bar the person from working with children. Referrals will be made as soon as possible after the resignation or removal of the individual.

31. In the case of teachers the school must also decide whether to refer the matter to the NCTL for consideration of a prohibition from teaching.

Returning to work following an investigation

32. Most people will benefit from some help and support to return to work after a stressful experience. Depending on the individual circumstances, a phased return and/or the provision of a mentor to provide assistance and support in the short term may be appropriate. The school will also consider how the individual's contact with the child or children involved in the allegation (if they are still at the school) and their families can best be managed.

Useful contacts

Local Authority Designated Officer: Quality Assurance Unit Service Manager

There is a duty system and one of the Child Protection Coordinators in the Quality Assurance Unit is on duty each day to deal with DO issues. The duty telephone number for all DO enquiries/referrals is 020 7525 3297

Schools Safeguarding Coordinator: 020 7525 2715

Schools Human Resources: www.southwark.gov.uk/schoolshr
